PROGRAM OVERVIEW

Sponsored by the Air Force Research Laboratory Space Vehicles Directorate and the United States Space Force, the Catalyst Accelerator is a three-month, semi-residential program located in Colorado Springs. The Accelerator is designed to increase the Space Force's awareness and rapid acquisition of commercial dual-use space technology by providing relevant business development training and connecting participating companies with users, decision makers, and potential customers across the DoD and commercial sectors.

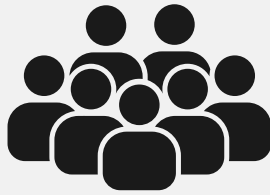

The Catalyst Accelerator has introduced innovative capabilities to the Government since its inception in 2018. Each Accelerator has its own problem statement that is generated with the help of various Government customers who have complex problem sets that require innovative, dual-use solutions. For more information on Accelerator topics, please visit the Catalyst Accelerator website at catalystaccelerator.space.

SPONSORSHIP AT A GLANCE

Sponsorship of the Catalyst Accelerator offers a unique way to invest in dual-use technologies that address Department of Defense (DoD) challenges. Your support accelerates innovation into the hands of the U.S. warfighter while strengthening our nation's defense and small business ecosystems.

Sponsors gain valuable visibility across the aerospace and defense community, including government, industry, academia, and our growing alumni network. All sponsors receive recognition through event visibility and marketing promotion, and may also pursue additional sponsorship opportunities including Newsletter Features and Support Network Webpage listings to broaden their impact within the Accelerator community. At select tiers, sponsors also gain direct access to the cohort experience, with opportunities to brief participating companies, join private dinners and program activities, and attend the Government Problem Statement Sponsor brief with the cohort.

Your sponsorship may also support participating companies by contributing toward travel, lodging, or program expenses, allowing founders to dedicate more time to developing their technologies and connecting with government and commercial stakeholders. Collectively, these investments strengthen the defense innovation ecosystem and help advance mission-ready capabilities for the warfighter.

The Catalyst Accelerator recognizes all sponsors who help drive cohort success and strengthen national defense innovation. Sponsorship levels are outlined in the following table, with additional opportunities detailed on the next page. Sponsorship amounts and benefits are negotiable based on partner needs. To ensure equitable visibility for all partners, the number of sponsorship opportunities available is limited.

OTHER WAYS TO SPONSOR

In addition to the core sponsorship levels outlined above, Catalyst Accelerator offers several additional sponsorship opportunities designed to expand your organization's visibility and engagement within our ecosystem. These options are ideal for sponsors seeking year-round exposure, a platform to highlight their expertise, or deeper connection with our alumni and partner network beyond in-person events.

Alumni Newsletter Sponsorships

Increase your visibility through our monthly Alumni Newsletter, shared with over 150 alumni companies and growing each cycle.

- **Standard – \$500 per issue**
 - Logo and link featured in the Newsletter Sponsor section, along with a brief spotlight highlighting a resource or service.
- **Premium – \$1,200 per issue**
 - Top-of-newsletter placement with an expanded spotlight and the option to include a testimonial, video, or major announcement.

Accelerator Support Network Page Listings

Maintain year-round visibility on the Catalyst Accelerator Support Network Page, where sponsoring organizations are acknowledged for their support.

- **Standard – \$3,500 per year**
 - Logo, organization description (up to 150 words), website link, and the option to highlight alumni-focused offers.
- **Premium – Exclusive to Catalyst Champion**
 - Premier placement at the top of the Support Network Page with an expanded company description and optional testimonial or promotional video. Premium sponsors also appear on the active cohort's webpage for continuous exposure throughout the program.

The Catalyst Accelerator retains the exclusive right to discontinue or terminate sponsorship arrangements at any time for any sponsor misconduct.

ALUMNI REVIEWS

FIVE STARS!

“Amazing opportunity. Our growth has been dynamic being here. You really accelerated our maturity as a business as well as executives...” - Defensive Cyber Operations for Space Cohort

“As a brand new startup I would highly recommend this program to those in similar situations. Helped us get our ducks in a row and guide our priorities in moving forward in the market.” - AI/ML for Space and Maritime Applications Cohort

“For understanding the government customers, their needs and getting help on government contracting, this is a must-attend program!” - Space Domain Awareness Cohort

“The program substantially expanded the number of government customers for our technology. We are now targeting beyond NASA and Space Force to include Army, Navy, SOCOM etc.” - Space-Based Joint Spectrum Cohort

CONTACT INFORMATION

JOIN US IN SHAPING THE NEXT GENERATION OF DEFENSE TECHNOLOGY

With the backing of our sponsors, the Catalyst Accelerator has played a key role in advancing innovation within the global defense ecosystem, supporting mission needs, and uplifting the small businesses that fuel our nation's progress.

Your sponsorship is an investment in transformative capability. Together, we can help groundbreaking technologies reach the warfighter faster and strengthen our national defense.

Join us in driving forward the innovations that will define tomorrow.
